When you have chosen the MEET and the club, you can add the ATHLETES on the right top

ATHLETES

Adding athletes to the team (Select and Add buttons)

Whenever possible please use the  button to add an athlete to your team (instead of entering an athlete manually by using the  button). This allows you to incrementally search the athlete database by last name and/or first name and the athlete will be properly connected with all his results in the swimrankings.net database:

Once the athlete you are looking for is shown in the incremental list, just click it to add it to the current team.

Editing or Removing Athletes

Back in the athletes list you may click on any name to show and, if necessary, edit the athlete's details. Do not forget to click the  button after having changed the data:

To remove an athlete from the team, use the  button.

 Please note that if you remove an athlete, all his or her entries will be removed as well!

ENTRIES

When you have adding the athletes for your team, then you can create the entries

You can choose two options

By event or by athlete.

By athlete or by event

Example view by athlete

The screenshot shows the 'Inscripcions' page for 'Finis Cup Tartu (EST)' with the team 'Hong Kong Swimming Team'. The selected athlete is 'CHKLAR, Alexander P - GBR'. The table below lists the events and their status.

Résultats de qualification: 9.6.2016 - 8.6.2018

Buttons: Sauvegarde, Jeter

Example view by entries

Apply the checkboxes to select the entries you want for the current athlete (event resp.) and then click the  button.

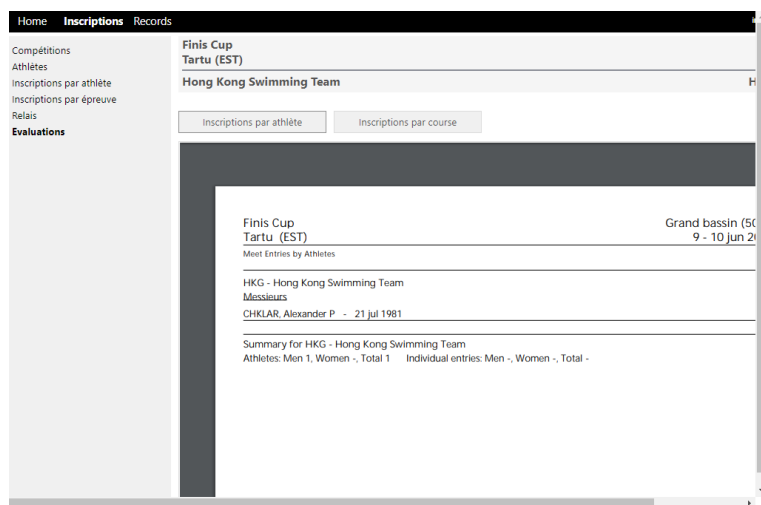

As you move the mouse cursor over a qualification time, you can see the meet date/city of the time: Qualification times are shown according to the rules for the qualification period of the selected meet.

 In case ENTRY TIME boxes show NT, you can double click onto and change by the right time. Don't worry if the reports show NT again.

REPORTS

Click the appropriate button to generate a report in PDF format.

 Reports can only be printed when your entries are valid. If you have too many entries in an event, there will be a warning.
